Mobile

91 / 100 Speed

 Consider Fixing:

Prioritize visible content

Your page requires additional network round trips to render the above-the-fold content. For best performance, reduce the amount of HTML needed to render above-the-fold content.

58.1KiB of the HTML response was required to render the above-the-fold content. This requires 3 network round-trips. [Prioritize the above-the-fold content](#) so that it can be rendered with only the first 2 round-trips' worth of HTML.

- None of the final above-the-fold content could be rendered with the HTML delivered within 2 round-trips.

 9 Passed Rules

Mobile

Avoid landing page redirects

Your page has no redirects. Learn more about [avoiding landing page redirects](#).

Enable compression

You have compression enabled. Learn more about [enabling compression](#).

Leverage browser caching

You have enabled browser caching. Learn more about [browser caching recommendations](#).

Reduce server response time

Your server responded quickly. Learn more about [server response time optimization](#).

Minify CSS

Your CSS is minified. Learn more about [minifying CSS](#).

Minify HTML

Your HTML is minified. Learn more about [minifying HTML](#).

Minify JavaScript

Your JavaScript content is minified. Learn more about [minifying JavaScript](#).

Eliminate render-blocking JavaScript and CSS in above-the-fold content

You have no render-blocking resources. Learn more about [removing render-blocking resources](#).

Optimize images

Your images are optimized. Learn more about [optimizing images](#).

81 / 100 User Experience

Should Fix:

Configure the viewport

Your page does not have a viewport specified. This causes mobile devices to render your page as it would appear on a desktop browser, scaling it down to fit on a mobile screen. Configure a viewport to allow your page to render properly on all devices.

[Configure a viewport](#) for this page.

Consider Fixing:

Size content to viewport

The page content is too wide for the viewport, forcing the user to scroll horizontally. [Size the page content to the viewport](#) to provide a better user experience.

The page content is 996 CSS pixels wide, but the viewport is only 980 CSS pixels wide. The following elements fall outside the viewport:

- The element `<header class="b-header-parking">Сайт обслуживается в REG.RU</header>` falls outside the viewport.
- The element `<p class="b-text">Если вы уверен...у на страницу.</p>` falls outside the viewport.

Mobile

Use legible font sizes

The following text on your page renders in a way that may be difficult for some of your visitors to read. [Use legible font sizes](#) to provide a better user experience.

The following text fragments have a small font size. Increase the font size to make them more legible.

- Сайт обслуживается в renders only 6 pixels tall (15 CSS pixels) final.
- REG.RU renders only 6 pixels tall (15 CSS pixels) final.
- В случае, если...о обратиться в and 3 others render only 6 pixels tall (15 CSS pixels) final.
- Продлить renders only 6 pixels tall (15 CSS pixels) final.
- Службу поддержки and 1 others render only 6 pixels tall (15 CSS pixels) final.
- В письме не за...у на страницу. renders only 6 pixels tall (15 CSS pixels) final.

2 Passed Rules

Avoid plugins

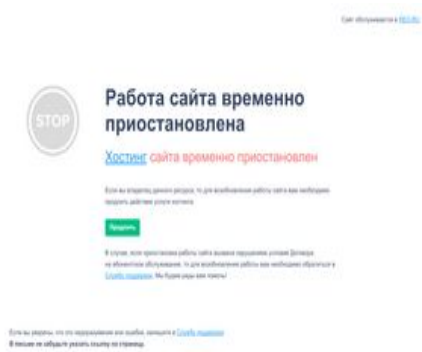

Your page does not appear to use plugins, which would prevent content from being usable on many platforms. Learn more about the importance of [avoiding plugins](#).

Size tap targets appropriately

All of your page's links/buttons are large enough for a user to easily tap on a touchscreen. Learn more about [sizing tap targets appropriately](#).
